

	Category	Project Name	Target Species / Lifestage	Location	Year	Season	Status -2008
1	<i>Information and Coordination</i>	Planning Group Coordination and Support		Rivers and Smith Inlets	Continuing	Year-Round	Funded by Tula Foundation for 2008
2	<i>Knowledge</i>	TEK study	All	Entire area	2005	Year-round	Wuikinuxv TEK study completed LOS TEK study on-going some map production GNN TEK study needs to be done.
3		Ecosystem modeling	All	Entire area	2005-2007	Year-round	Work in progress. Rick Routledge is the lead funded by the Tula Foundation.
4		Analysis of lake and fjord sediments	All	Owikeno and Long Lake	2005	Year-round	Workshop planned for September 2008
5		Analysis of glacial retreats	All	Rivers and Smith Inlet Watershed	2005	Year-round	Work to begin in Fall of 08. Rick Routledge contact.
6		Analysis of past primary productivity	All	Inlets and beyond	2005	Year-round	Work in progress. Contact Susan Allen and Rick Routledge
7		Hydrodynamic modeling	All	Rivers Inlet and Wyclees Lagoon	2005	Year-round	Work in Progress.
8	<i>Stock Assessment</i>	Adult sockeye enumeration	Sockeye, coho, chinook / adult	Docee River	2004 - 2008	June-Nov	Ongoing
9		Adult sockeye enumeration	Sockeye	Wannock River, Owikeno Lake	2004 - 2008	Summer – Fall	Clear stream X3 index is used. Improved correlation to abundance possible with Hydro-acoustics on the Wannock plus DNA data base for stream specific status.
10		Juvenile sockeye assessment	Sockeye	Long Lake	2004	Spring	Julian will forward Kim Hyatt's report
11		Juvenile assessment	Sockeye, chinook, coho	Wannock River, Owikeno Lake	2004	Spring	Julian will forward Kim Hyatt's report.
12		Adult assessment - Creel surveys	All	Rivers Inlet	2004 - 2008	Summer	The last creel survey was summer 2005. Log books from lodges are used.

13		Adult chinook enumeration	Chinook	Rivers Inlet, Smith Inlet	2004 - 2008	Fall	Ongoing program
14		Adult chum assessment – Nekite River	Chum	Nekite River	2004 - 2008	August - October	Funded for 2008 by the Northern Boundary Fund.
15		Coho juvenile surveys (fry density)	Coho	Smith / Rivers Inlet drainages	2004 - 2008	Summer, Fall	Rivers Inlet Coho Enhancement funded by NBF 2008
16		Sockeye enhancement / mark recapture / fecundity estimates	Sockeye	Long Lake, Owikeno Lake	2004 - 2005	Fall – Winter	Project completed 2007.
17	<i>Habitat Assessment and Rehabilitation</i>	Lake limnology monitoring	Sockeye	Owikeno and Long Lake	2004		Work in progress.
18		Long Lake enrichment	Sockeye	Long Lake	2004 - 2007	Spring – Summer	Long Lake capacity is not the limiting factor
19		Critical habitat surveys	All	Smith Inlet and Rivers Inlet drainages	2004, 2005	July - Nov	Digital maps of critical habitat surveys have been completed .
20		Log debris study	All	Owikeno Lake, Long Lake	2004		Work to date shows log debris not an issue
21		Instream Restoration	All	Rivers and Smith watersheds	Unknown		Needs to be reviewed.
22		Wannock River estuary assessment	All	Wannock River	2005		Project completed 2006. Monitored by Wuikinuxv fisheries manger.
23		Seal survey	All	Owikeno Lake, Wannock estuary, Wyclees Lagoon	2005		Needs to be reviewed
24		Early marine study	Sockeye	Smith Inlet, Rivers Inlet	2004-2008		Ongoing
25		Hatchery Feasibility Study	All	Owikeno Basin	Unknown		Completed February 2008
